FACT SHEET

Product Name: ALL-IN-1 DESKtop for VMS DECwindows

Function:

ALL-IN-1 DESKtop for VMS DECwindows extends ALL-IN-1 to the DECwindows environment, supporting the power of the DECwindows graphical user interface and DECwindows applications, while integrating workstation users into the ALL-IN-1 office workgroup.

ALL-IN-1 DESKtop for VMS DECwindows provides a DECwindows interface to server-based ALL-IN-1 applications and services, allowing mouse selection of menu items. It also integrates the DECwrite compound document editor into ALL-IN-1, offers window viewers for ALL-IN-1 documents, and includes leadership DECwindows applications built on Network Application Support (NAS).

Key Features:

- o Enables DECwindows workstation users to directly utilize ALL-IN-1 integrated office applications and services.
- o Includes NAS-based applications that complement ALL-IN-1 applications and services:
 - ALL-IN-1 Mail for VMS DECwindows, an electronic messaging application that adheres to CCITT X.400 recommendations; and
 - VAX Notes electronic group conferencing application, enabling ALL-IN-1 users throughout the network to easily communicate on a many-to-many basis.
- o Supports the use of DECwrite as an optional ALL-IN-1 word processing editor, and allows the storage and manipulation of compound documents in the ALL-IN-1 File Cabinet.
- o Lets users work with full-page document viewing and multiple windows. A File Cabinet document can be edited while another is viewed; multiple windows can display information such as mail and calendar items.
- o Allows users to exchange compound documents containing text, graphics, images, spreadsheets, charts, and tables using electronic messaging.
- o Enables document exchange between DECwrite and WPS-PLUS; users can access their documents from VTs and PCs as well as from workstations.
- o Combines the powerful integration and development capabilities of ALL-IN-1 with DECwindows programming tools and features.

-more-
